Public Works Schedule for Garbage Collections throughout the Town

Collections begin at **7:00 am** (*Monday and Tuesday mornings unless Holiday Schedule*).

Citizens are asked to have their garbage out by 7:00 am on those two days. Any trash that has not been picked by Tuesday will be picked up on Wednesday.

Each home is provided one (1) 95-gallon regulation garbage can by the Town. Additional cans are available at a cost of \$55.00 per can. There will also be an additional charge on utility bills in the amount of \$5.00 per month for each additional can (*Example: 2 cans = \$ 14.00*).

No garbage can may exceed a weight of **95** gallons.

We do not collect paint cans unless filled with dirt or sand.

Food or any other spoilable items must be inside plastic bags.

Trashcans need lids in order to prevent animals from pulling out garbage.

We do not pick up behind fences.

We do not rake up in yards if trash is left out where animals may scatter it back into the yards.

We do not pick up any hazardous materials.

We do not pick up contracted work.

All material, whether it is brush, white goods (metal), C/D (construction/demolition) or garbage **must be separated** or will not be picked up.

When a homeowner does not live in the house they own, but are doing repairs and/or remodeling the house in order to rent or sale, the Town will **not** be responsible for the pick up of the debris.

Containers other than regulation garbage cans will not be emptied, and no garbage will be picked up unless it is inside a regulation garbage can.

All these regulations are in the Town Ordinance Book in section 4-2001 to 4-2012. If you have any questions on this, please do not hesitate to call Ranlo Public Works Department and speak with Brian Wall at 704-824-4013.
